

Zebra Airport Credentials

Who we are

zebra is a global design and architecture consultancy specializing in consumer-focused experiences.

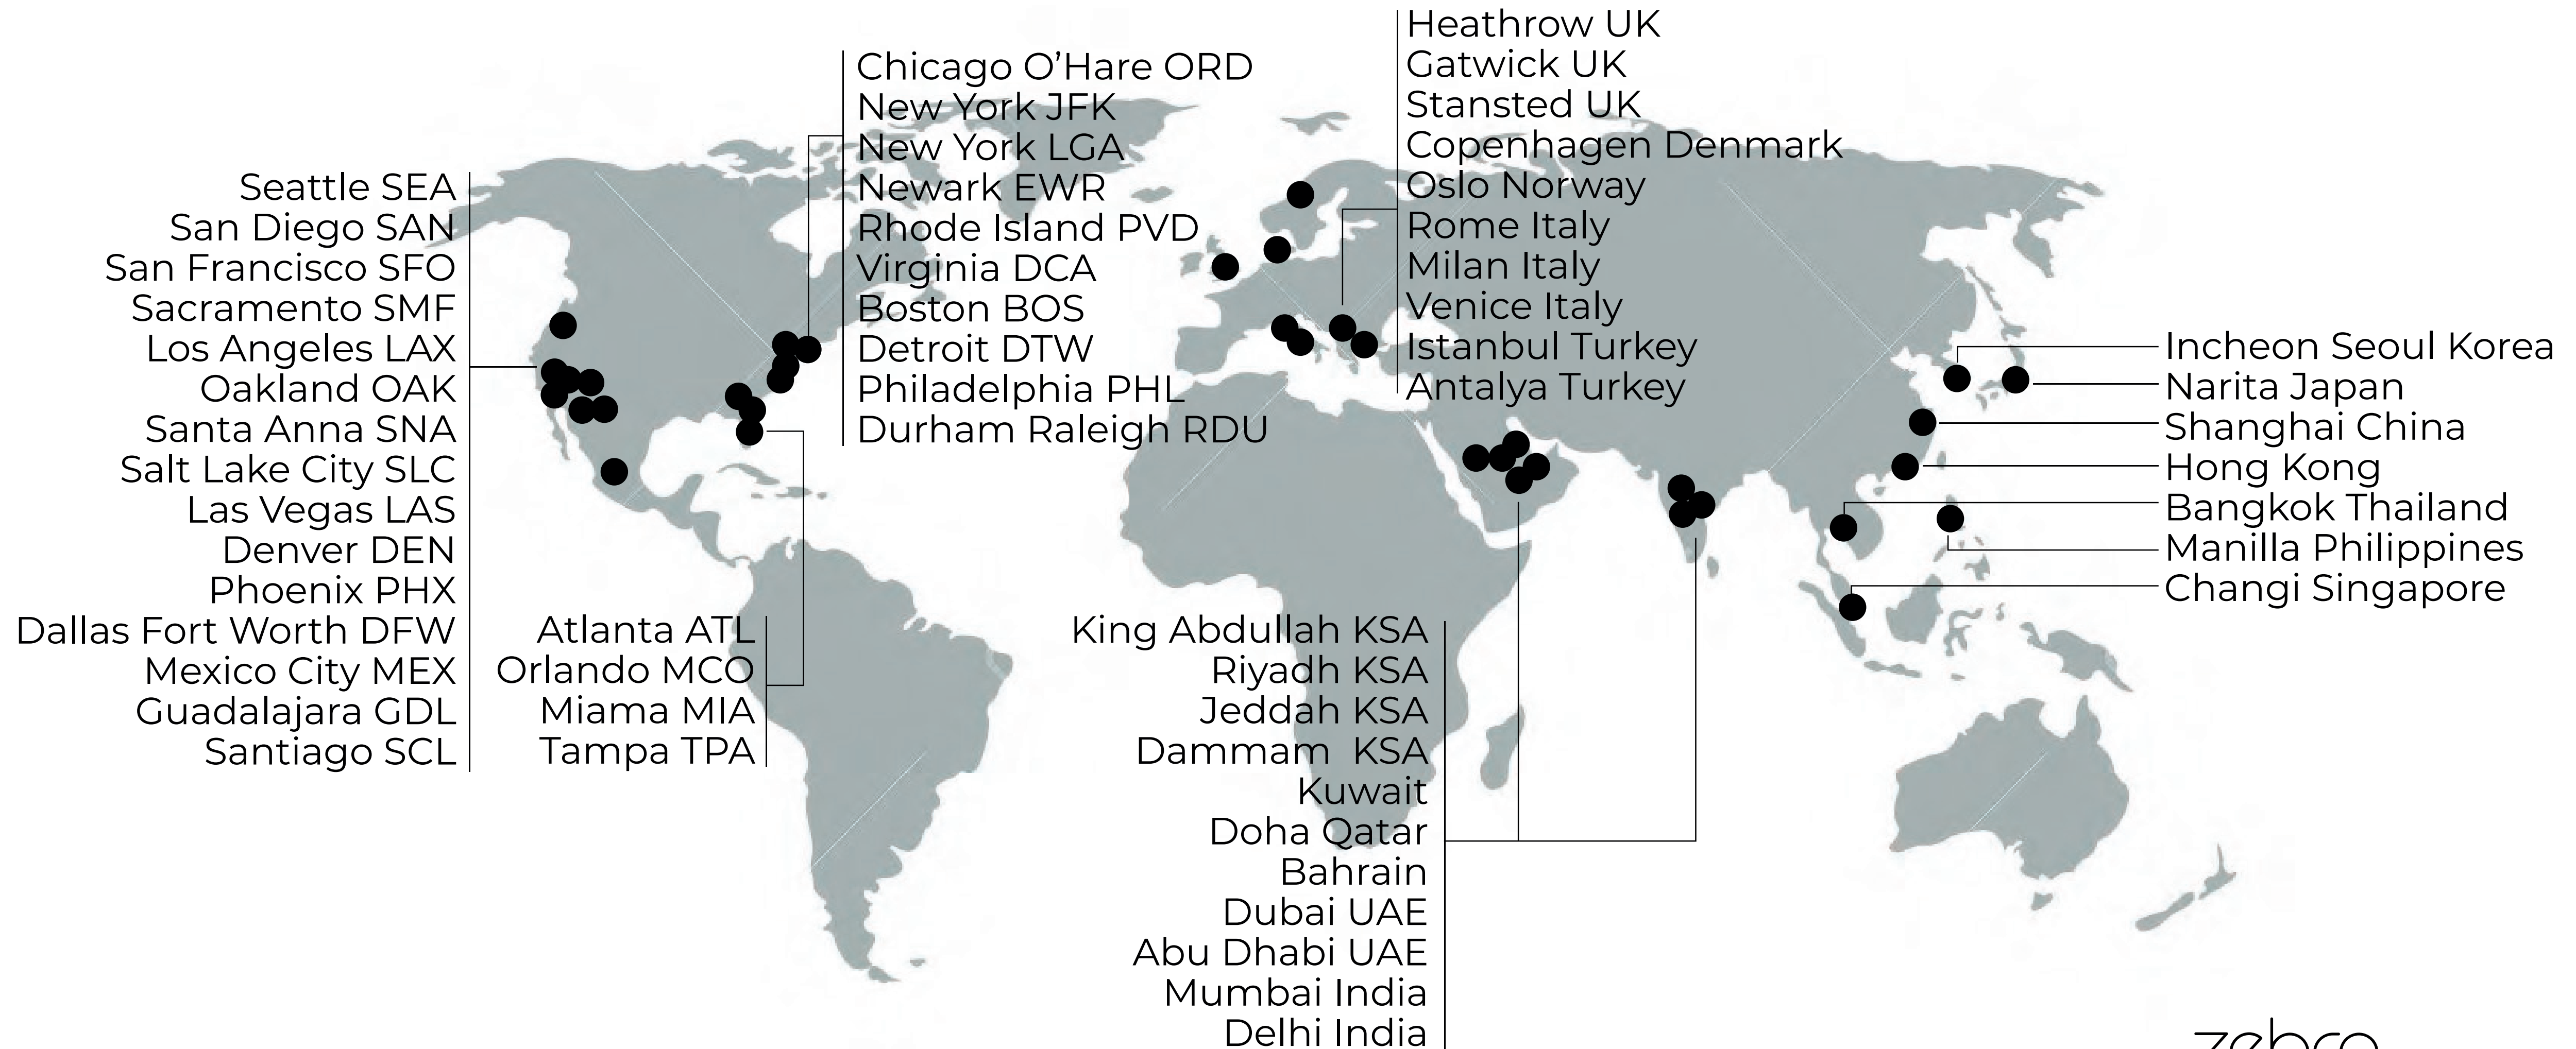

We were established in London over 27 years ago by leading in-house brand experts with a vision – to deliver design that truly connects brand and consumer needs. With years of experience, unmatched commercial intuition and a rare understanding of what it means to be a client building a brand, zebra was born.

Today, our in-house approach remains one of our most powerful assets. It fuels our entrepreneurial spirit, creativity and enables us to find common ground with clients big or small. Our understanding of what connects us as people shapes the environments we create; retail, hospitality and beyond.

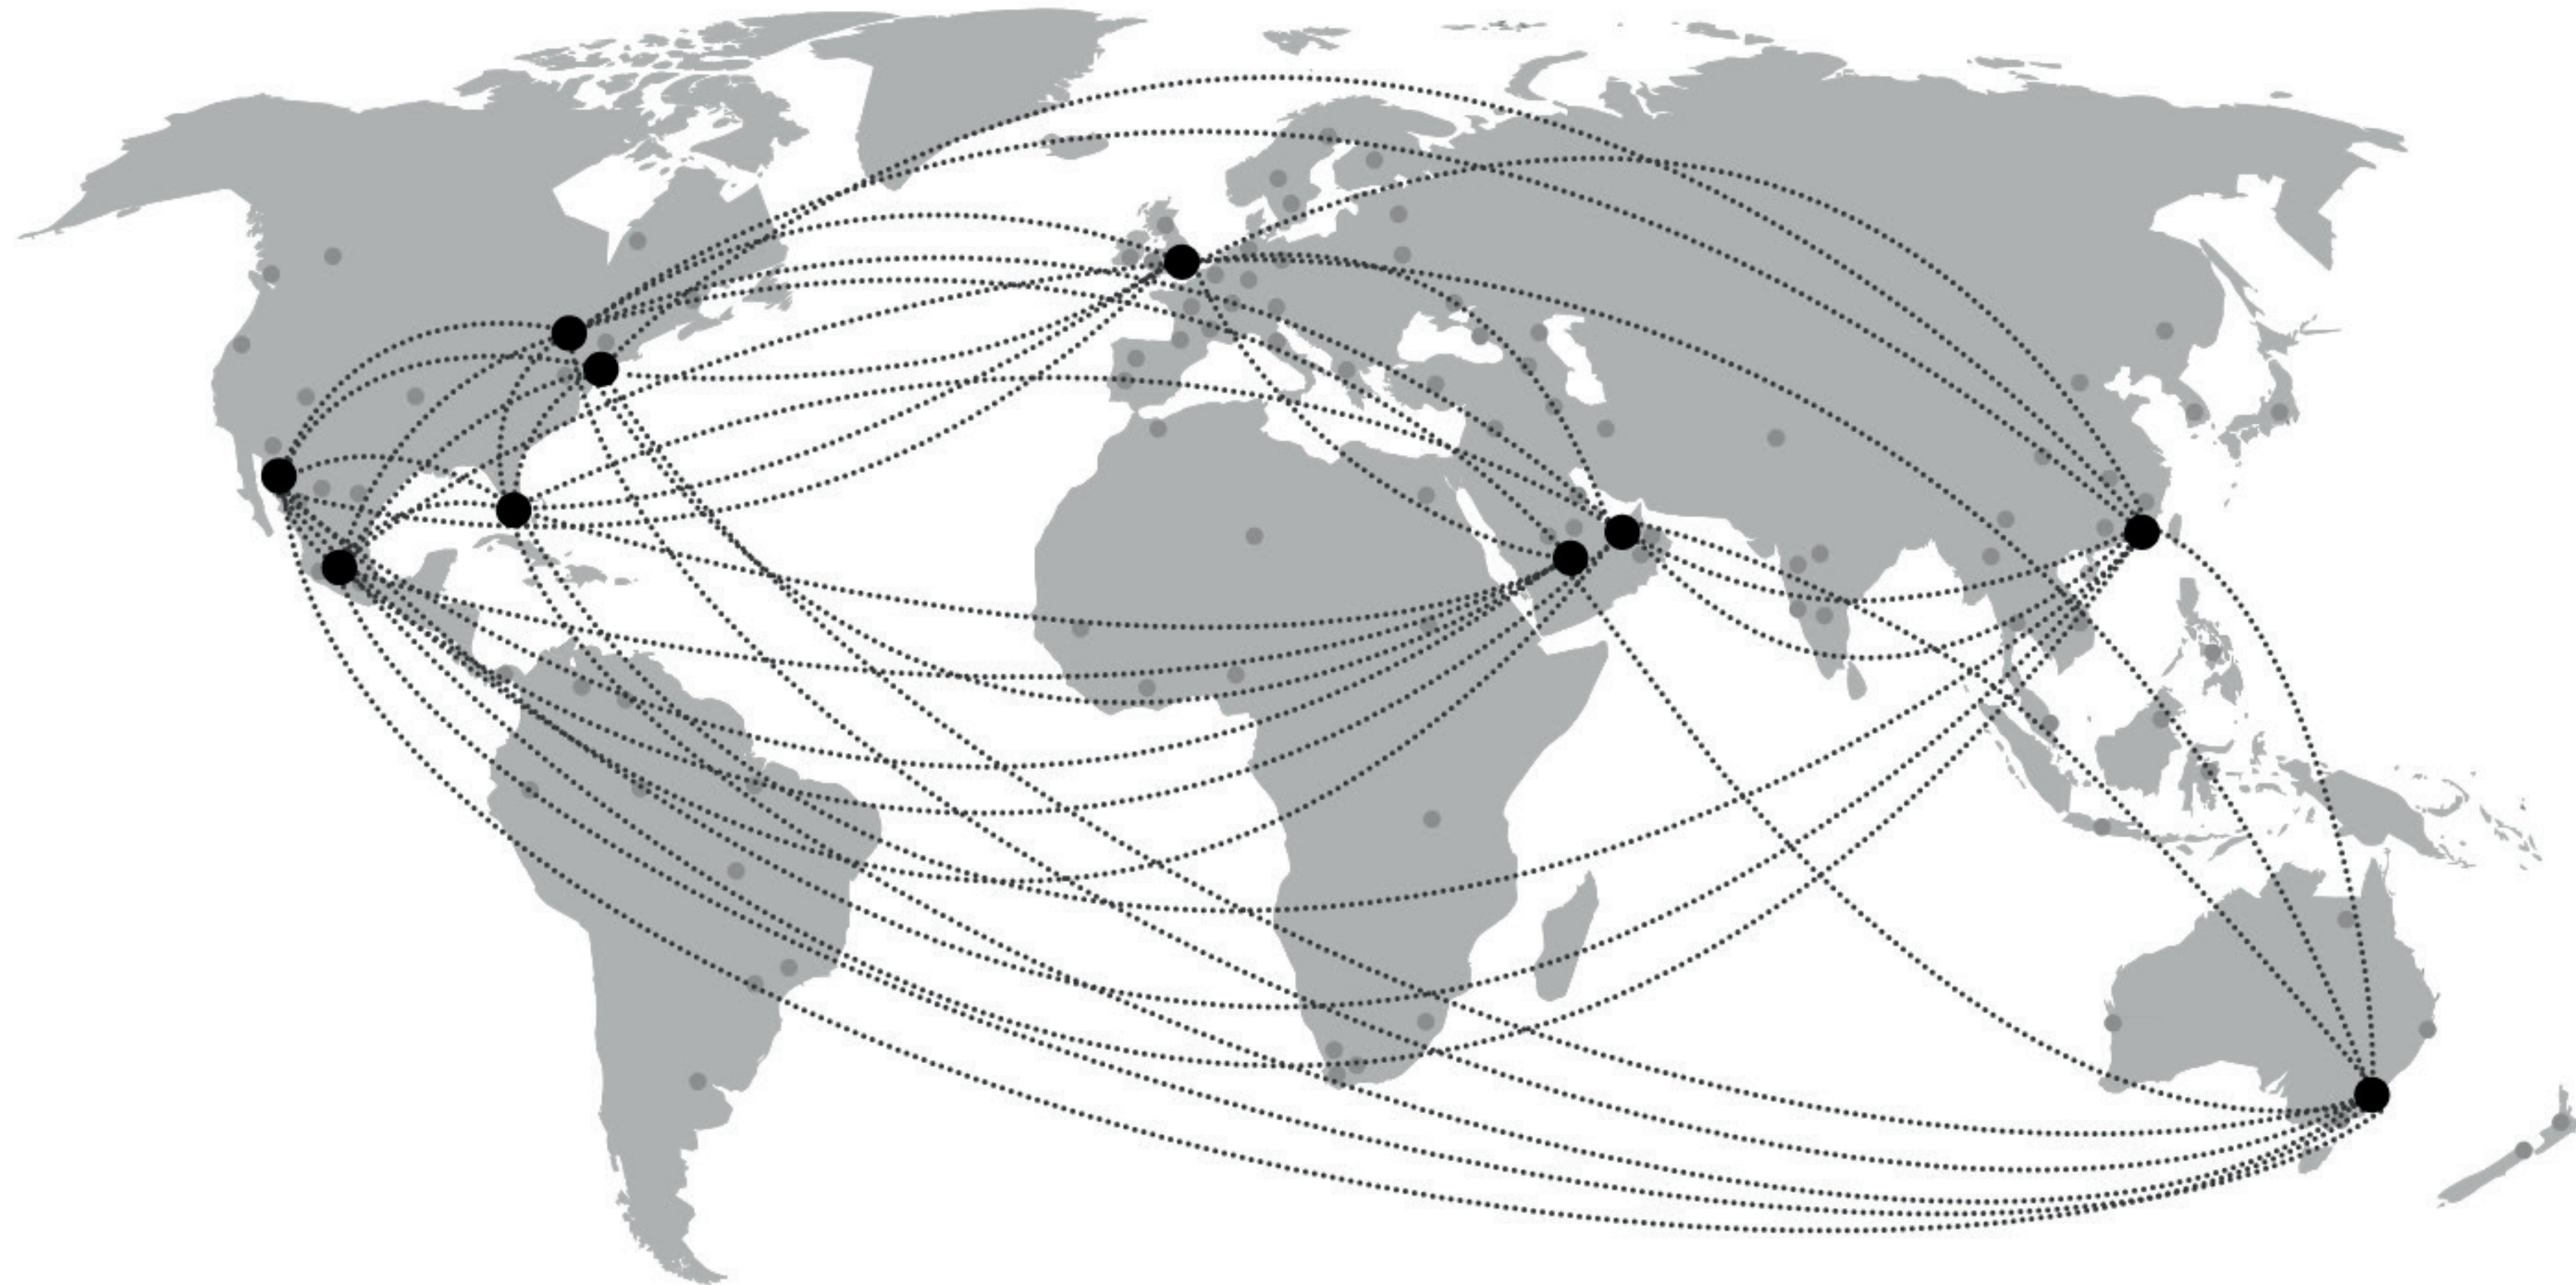

Through cutting-edge design, deep cultural knowhow and invested partnerships we create spaces formulated to evoke mood, atmosphere and feeling, delivering the rich, lived experience that enables consumers to connect deeper to brands.

Design lives in our DNA.

- Strategy and Brand Development
- Digital Creations
- Branding and Graphics

USA Architecture

Whether we're implementing a prototypical design or generating a design in collaboration with our client, **zebra** can deliver as the Architect of Record – acting as the Prime Consultant for national programs or one-off projects.

We offer this service across the United States and Canada for both Interior Architecture and Ground-up Building Design. As architects, interior designers and sustainability leaders, we carry due diligence, engineering, permitting and program management services within **zebra** for seamless and quickly scalable results..
